

Grades 2-3: Outdoor Habitats Guide

Answers can be found by reading exhibit signs or by observing the animals in their habitats.

Coastal Plain Aviary

Using your sense of sight or hearing, write or draw two observations about the birds in the aviary.

1.	2.
----	----

Red Wolf Exhibit

What do you think would happen to the red wolf if there were no plants in its habitat?

Red wolves are an endangered species. This means:

A. There are lots of them in the wild.

B. There are not very many in the wild.

Dinosaur Discovery Trail

Draw a fossil that you observed and then write one fact about the organism that it came from.
