

## Grades 2-3: Outdoor Habitats Guide

Answers can be found by reading exhibit signs or by observing the animals in their habitats.

### Otter Exhibit

Using your sense of sight or hearing, write or draw two observations about the otter and its exhibit.

1.	2.
----	----

### Red Wolf Exhibit

Red wolves are an endangered species. This means:

A. There are lots of them in the wild.

B. There are not very many in the wild.

### Dinosaur Discovery Trail

Draw a fossil that you observed and then write one fact about the organism that it came from.

### White-Tailed Deer

Animals have basic needs. Put a check next to the basic needs that you see or know are there for the white-tailed deer.

Food     Shelter     Water     Air     Space

### Wild Care Center

Our zookeepers work hard to provide what our animals need to survive. What do our zookeepers and vets provide for our animals?

---

## Grades 2-3: Indoor Exhibit Guide

Answers can be found by reading exhibit signs or by observing the animals in their habitats.

### Virginia's Coastal Plain Gallery (Upper Level)

Fish have a variety of ways to camouflage in the water. Observe one of the fish and describe how it blends in with its surroundings.

---

---

---

### Virginia's Underground Gallery (Lower Level)

Look at the Fossil Rich River of Time exhibit.

I notice	I wonder

### Appalachian Mountain Cove Habitarium (Lower Level)

What noises do you hear? \_\_\_\_\_

How does the air feel? \_\_\_\_\_

What was your favorite part about today? \_\_\_\_\_

---

---

Draw a picture of your favorite animal in its habitat. Label the living and nonliving things in its habitat.
