

Come And Visit The Museum

I can't wait for my trip to visit the
Virginia Living Museum in Newport News, Virginia!

The Museum is large with two buildings:

The Main Building

The Wason Education Center

To get inside the museum, I have to choose between one of two doors!

Left Door

Right Door

Once inside, the welcoming Museum Staff at the Front Desk can answer any of my questions about my trip to the museum. They can also provide me with a wheelchair and sensory bag if I need one.

All of the Museum staff members wear a blue shirt or a dark green shirt with an otter on it.

If I need something, I can always ask a staff member for help.

Time to explore! The museum has two floors of exhibits.
I can go up and down by using the stairs or using the elevator.

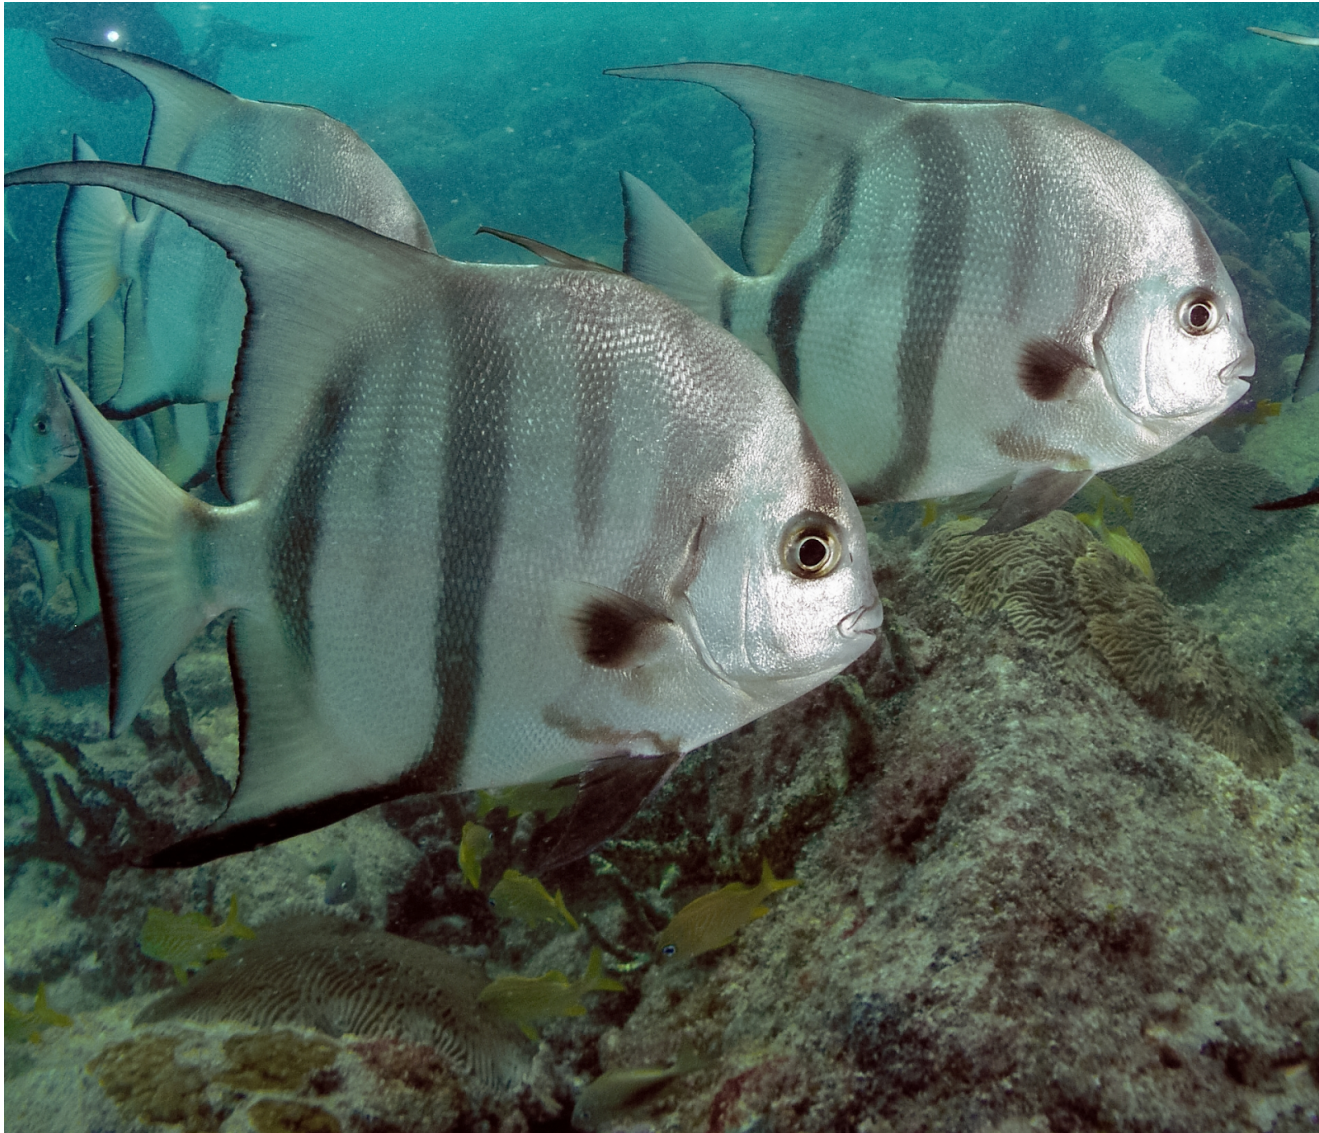

Sometimes the Museum is loud and a little crowded.

There are quieter areas that the Museum Staff can show me if I need one.

During my visit, I can see live animals

Like these Atlantic Spadefish!

I can touch some living animals at the Touch Pool.

There are friendly volunteers at the Touch Pool to show me how to safely touch the animals.

The volunteers are very friendly and knowledgeable about the Museum. They wear a blue shirt or a blue smock with an otter on it.

I can always ask a volunteer for help if I need to!

I can become a veterinarian or an animal keeper in
Wild and Well Exhibit.

I can explore outside.

On the Outdoor Trail,
I can touch dinosaur fossils and look at dinosaur statues.

Like the *T.rex*.

I can sit next to a waterfall.

To get to the Wason Education Center, I have to walk through the Conservation Garden.

At the Wason Education Center,

I can enjoy a Planetarium show.

I can't wait to visit the museum!
